INSPECTOR THOMPSON OUT.

"CHESTY" GEORGE MCCLUSKY WILL SUCCEED HIM.

The Hero of the French Ball Retired on His Own Application—Says He'll Have to Work for a Living Now—His Pension Hardly Pays His Insurance.

Police Inspector Walter L. Thompson made application for retirement yesterday morning to Commissioner Greene, who approved of the request immediately upon receiving it. Thompson has been detailed to the Borough of Queens ever since Col. Partridge took charge of the department. He said on Wednesday night that he wasn't going to retire.

Thompson's successor will be Capt. McClusky, "Chester" George. His appointment is likely to come to-day. McClusky is the only one on the list of eligibles and furthermore Commissioner Greene told him the other day that he would be the next one appointed. Gen. Greene yesterday sent to the Civil Service Commission for a list of captains eligible to an inspectorship and expects to receive a reply to-day. The request for a list is only a matter of form. McClusky is at present in command of the 12th precinct station.

Thompson himself wandered in to see Gen. Greene in the course of the day. When he left the Commissioner's office Thompson was asked if he had so much money that he could take life easy. "No," he replied. "I just told the Commissioner that I wished that I had \$50,000 over and above the mortgage on my house. I've got to go to work. Why, I've got to pay \$1 a day on my life insurance policies alone. There's no soft time coming for Walt Thompson. Anyway, I'm glad the Commissioner retired me."

Thompson's pension will be \$1,750 a year. He is 67 years old and became a member of the force in April, 1867. He was made a sergeant in 1867 and for four years was detailed in the upper Harlem district. President Roosevelt brought Thompson from his obscurity and sent him to command the Oak street station.

He got his inspectorship in 1897 from Frank Moss and was sent to the Fourth Precinct, which includes the Tenderloin. He got a good deal of notoriety there, especially at the "T. V. Club," where he once picked into a crowd of waiters.

TWO LINERS IN A DAY LATE.

Big Kaiser Suffered More Than Oceanic—British Railroad Men Come.

The North German Lloyd steamship Kaiser Wilhelm der Grosse, from Bremen and Southampton, had a hard fight with wind and wave on the voyage she ended yesterday. She was more than a day late. On Sunday she shipped the crews of many convicts, which stove two lifeboats, smashed the deadlights of several staterooms and carried away some of the stateroom furniture.

Dr. Alfred Fellman, the new German Minister to Venezuela, who was a passenger by the Kaiser, said on arrival: "Germany has no desire to violate the Monroe Doctrine. The future will show this."

The White Star liner Oceanic, fully a day late from Liverpool and Queenstown, had a mighty heavy weather, but was undamaged, being much bigger and stouter than the German greyhound.

Among the Oceanic's passengers were Chief Freight Agent F. R. Co. Chief Engineer Thornhill, London Superintendent H. H. East Assistant Superintendent H. G. East, all of the London and Northwestern Railway, and G. S. Callaghan of the California Railway of America, who are here to study American railroad methods. They all pay particular attention to the locomotives.

BOOTH TARKINGTON AGAIN.

The Honorable Mrs. Tarkington of Indianapolis.

Indianapolis, March 5.—Booth Tarkington, the author member of the Indiana Legislature, will be put forward for Mayor of Indianapolis by Republicans who are opposed to the re-nomination of Mayor Charles A. Bookwalter. Mr. Tarkington is the House of Representatives has shown that he is one whom the machine cannot control and it is for such a man that the anti-machine Republicans of Indiana are looking.

Mayor Bookwalter has anticipated his candidacy for reelection. Tarkington secured his nomination to the Legislature by a majority of many hundreds above other candidates. He is a man of high character and is expected to carry the city organization, however, at the primaries for the present commitment, which will be held on Saturday night. The fact that these men have been antagonistic to each other has been a source of much amusement to the city.

Water Meter Insurers Fined.

On the recommendation of Deputy Water Commissioner Van Lint of the Borough of Brooklyn, Commissioner McGowan yesterday ordered the disconnection of water meters of the Water Meter Insurance Co. of New York City.

The Water Meter Insurance Co. of New York City, which was organized in 1898, has been operating for some time on a basis of "no loss, no pay," making charges only to be made against the loss of the water meter.

The Wanamaker Store.

What Kind of A HAT Do You Want, Mr. Man?

DON'T know? Of course not. You want to be shown what the best makers have brought out. No name stands higher than Stetson. Everything that he has made is here, as well as the leading blocks of other high-class hatters.

The \$3.50 Stetson Derby is leather-weight and self-forming, on new Spring blocks, in various proportions.

The "Portland," with flat-set brim and full crown.

The "Sylvan," with open D'Orry curl and round crown, both very suitable styles for young men.

The \$5 Stetson Derby Hats include

The "Oxford," a conservative hat.

The "Tropic," a self-forming hat, in Spring and Summer weights, as comfortable on the head as any soft hat.

The new Golf Hat—"The Sundown," extremely wide brim, low crown; very light and flexible; at \$4 and \$5.

The Stetson Somborne, in black and nutria, \$5 to \$7.

The Imperial Derby presents the "Palmetto" with low crown and flat brim; the "Belmar," with round crown and wide open curl; "Layton," English block; "Harvard," \$3.

The New Imperial Soft Hats include the "Arcola," with low flat crown and wide open curl brim; the "Maurice," with round crown and wide brim, flat set. \$3.

The "Wanamaker Special" Derby and Soft Hats, in new Spring blocks, at \$2.

MOONSHINE MARY AGAIN.

Don't She Promise to Reform Again for the Fourth Time?

Mary Greenman, a dwarf, who is said to be the best maker of illicit spirits on the East side, was arrested yesterday in the basement of a tenement at 71 Oliver street, where she was actively superintending the operation of a hundred-gallon still.

She had been arrested three times before. In October she was convicted of running a still in Cherry street. Because of her abject poverty and on her faithful promise to reform, Judge Thomas suspended sentence. He, however, ordered her to report weekly to the House Agent in charge. This she has done faithfully.

In her recent visit to his office, the House Agent noticed that her fingers were heavily stained by much and he ordered her to stop the operation of stilling her poison still. She refused to do so and was again arrested.

You will have a good time watching her this time. I know more than that!

This time she did not intend to report weekly and would to all without a fear.

MOONSHINE MARY AGAIN.

The Moonshiner Association Has a Little More

The Moonshiner Association has sent to Albany a bill to amend the Liquor Law by increasing the membership of the State Liquor Commission from three to five and two additional members to come from and represent the city and to be civil engineers familiar with transportation problems here. Amended Liquor Law has been introduced in the Assembly.

TO CLEAN UP ETHAN.

The Common Council voted to spend an estimated amount.

ETHAN. On March 5, Mayor McGowan's efforts to clean up the streets of the city followed the appropriation of \$10,000, also came to a close at the instance of the State Board of Health. The Common Council of the city at once voted to spend \$10,000 to clean up the streets of the city.

A group of men went to work to clean up the streets and to disinfect the lower houses.

Dr. Sager said today that an estimate of the work to be done at the present time would be a conservative one, and that with Valenciennes lace and ribbon, a sufficient had been done. However, the number of new cases is rapidly decreasing and it is hoped that prompt efforts to destroy the source of sanitary infection will materially relieve the situation.

KILLED BY A TRUNDLE.

Mother and Daughter Dead—Two Other Children Injured.

BRONXVILLE, Ohio, March 5.—Mrs. John Greenman and three children, two girls, aged 8 and 10, and a boy, aged 11, were killed today by a big four-wheeled car of the city street car line when they were struck by a local passenger freight car.

The mother and the eldest girl were killed instantly and the other two injured seriously. All were hauled from the scene to the water city hospital.

Engineer Thomas Lewis says the big car was driven by a man who was drunk and that it was a very fast car.

It is hoped that prompt efforts to destroy the source of sanitary infection will materially relieve the situation.
